BANQUET BOYS WHO HUSTLED FOR DRY VICTORY

Dry Federation Officers, Assisted by Many Other Prominent Citizens Hold Gathering.

The High School boys, who on election day, stood at the polls and distributed cards to the voters telling them how to vote were entertained at a banquet by the officers of the Dry Federation at the Chamber of Commerce Building last evening.

A sumptuous feed was provided by the Women's Christian Temperance Union, some of the members of which waited upon the tables.

Atty. D. A. Baird was toastmaster and he first introduced Dr. Winters, pastor of the Methodist church. Dr. Winters spoke humorously and interestingly of the campaign which was carried on and referred to the good work that the boys had performed in very amusing stories that were very apt to the occasion.

The next speaker was Mrs. Nellie Hill, who was managing secretary of the Dry Campaign. She had planned the work of the boys on election day and had visited the various voting booths several times during the day. She spoke of the deep appreciation she felt for the work that the boys performed and spoke of their uncomplaining attitude in the labor and their willingness to go anywhere they were sent and their faithfulness despite the storm to their work through the day.

Following Mrs. Hill the toastmaster introduced Warner Washburn who

Men and Places in News from Mexico

Above: William O. Jenkins and map showing (1) Puebla, where Jenkins is held a prisoner; (2) Mexico City, capital of the troubled republic; (3) El Paso, where American troops are in readiness to dash across border. Below, left to right: Gen. Alvaro Obregon, Gen. Pablo Gonzales and President Venustiano Carranza.

President Carranza's apparent determination to force the United States to intervene in Mexico by holding prisoner William O. Jenkins U. S. consular agent at Puebla, is believed to have resulted from delicate internal conditions in Mexico. The country appears to be on the verge of another revolution, General Obregon being in charge of forces hostile to the present government. Gen. Pablo Gonzales is in command of the army that remains faithful to Carranza.

GERMAN UPHEAVAL OVER U. S. FAILURE TO SIGN PEACE TREATY

(By Associated Press)

Paris, Dec. 3.—Germany has decided not to sign the protocol presented by the allies as a condition for putting the peace treaty into effect.

It has been learned that Baron Von Gersak, head of the German delegation here calleed on General Ducosta, of the conference and told him Germany had made such a decision.

This confirms the report of a sharp reaction in Germany during the last fortnight. Observers have reported a complete transformation in Germany due to the failure of the United States to ratify the peace treaty.

MAYOR OPPOSES GAS COMPANY'S RATE INCREASE

And City Officials Want the Company to Keep Faith With the People.

City officials generally admit they are against increasing the gas rates in this city without first having the desired extensions. Some of the offical are against a raise even with the extensions.

Reports today from all sections of the city report a low and inadequate gas pressure altho there is sufficient gas for cooking and heating.

"I absolutely will oppose an increase in rates unless some benefit is realized," said Mayor Asaph R. Jones today. "I am firmly against any kind of increase in rates without extensions of the gas service to newly built homes and recently opened allotments."

"I believe that the gas should be conserved by eliminating its use in heating factories and in furnaces," continued Mayor Jones, "I believe that families should be permitted to use gas in small stoves where homes have no furnace."

City officials are of the opinion that there is sufficient gas supply and that the gas shortage claimed by gas companies is but propaganda to develope sympathy for an increase in gas rates.

Many Elyria officials claim they have received the report that in several cities where the gas rates have been increased, the increase was immediately followed up with a higher gas pressure.

The present gas franchise does not expire for five years and officials believe the gas company, in order to maintain the good will of its patrons, should absolutely fulfill its contract.

It has been suggested to municipal officials that the city take action against the gas company to enforce specific performance but this would be difficult to execute under the equity clause, officials declare.

Officials are informed that the gas company, if necessary, is willing to forfeit its $10,000 bond in order to extract an increase for gas in this city.

ORDINANCE WILL CALL FOR LARGE ANNEXATION

If Proposed Legislation Goes Through Elyria Can Accommodate Thousands More People.

The city council paved the way for the annexation of a large amount of adjacent territory Monday evening, and under a suspension of the rules passed an ordinance authorizing the city solicitor to begin proceedings at once.

The ordinance calls for the annexation of a large part of Elyria township, and another slice from Carlisle township.

The Elyria township addition takes in the land of the Abbe road to Ridgeville township, south far enough to take in the property acquired by the proj[illegible] new Willys-Overland plant, north for about a half mile, and west running clear through to the Catholic cemetery on Lake avenue, thence south to the city limits.

The Carlisle annexation takes in the green line power house, Birmingham park and the land south of the green line tracks for a distance of about a quarter of a mile.

If this legislation goes through the city will contain enough land for at least a population of 100,000 people, and provides for the contemplated growth, that every one feels sure is bound to come.

EVERYBODY WHO WANTS TO ACT IN THE MOVIES MUST BE OUT SATURDAY

Next Saturday afternoon the Argus Motion Picture Company will be in Elyria taking street scenes which will be shown later on the screens in this city. The public of course is invited to makee its appearance en masse on that day and show that Elyria is 100 percent populated.

INCOME TAX LAW READY FOR THE LEGISLATURE

(By Associated Press)

Columbus, O., Dec. 3.—The proposed income tax law was ready this morning to present to both houses of the legislature.

The measure provides that exemptions be lowered from $1,000 and $2,000 to $500 and $1,000. Single men are to be allowed exemptions of only $500. Married men $1,000 and $200 for each dependant child.

The rate of taxation is fixed at one per cent on the first $4,000 and two per cent on each additional thousand.

These rates are the same as the Federal Income law but the exemptions are lower. It is estimated that the law will bring in about $7,000,000 annually to the state, counties and cities.

Twenty-five per cept will go to the state and 75 per cent to local taxing districts.

Personal Injury Case Filed In Court Today

Asking for $10,000 damages against the Lorain Street Railway, Sophia Thuemling, began a personal injury damage case in the Court of Common Pleas today.

She alleges in her petition that on the 14th day of December, 1914, while on a car in this city, she slipped on the steps while alighting, and fell heavily to the ground. She severely injured her spine, lacerated her back, and sustained a shock to her nervous system from the effects of which she states she never has recovered.

Mrs. F. A. Tite is spending the week with her sister, Mrs. Harry Standon in Cleveland.

CLAIMS HE STILL HAS WIFE BUT HAS ASKED FOR DIVORCE FROM HER

Husband Says She Grew Indifferent to Home and Child.

Herbert Cushion, a Wellington man, has filed an action in court against his wife, Maude Cushion, on the grounds of extreme cruelty and gross neglect of duty. He states that they have one child, and for a number of years lived happily together.

Then, he asserts, she received the attentions of an acquaintance, now in the employ of the government. She gradually grew cold and indifferent and finally left him and went to the home of her mother in Clyde, where she now resides. He alleges that he still loves his wife and child and believes the little one needs the care of both father and mother, but he asks for a divorce and custody of the child.

This pole was erected five years ago by the Sons of Veterans, and has been a source of pride to the residents of that vicinity ever since. They always kept Old Glory floating there, and at any time could get a glimpse of the flag of freedom under which they now live. An effort will be made to get a new pole for the Settlement House that will last for at least another five years.

PREDICT FOUR-PAGE PAPER BY CHRISTMAS

Scarcity of News Print Paper Blamed, Says Ohio Select List.

Columbus, O., Dec. 3.—Advancement of their advertising and subscription rates was urged by the select list of Ohio daily newspapers, in session here yesterday.

It was pointed out newsprint prices have soared 100 per cent during the past [illegible] months and for most publishers 400 per cent since the war started.

It was predicted that a number of publishers who ordinarily issue an 8 to 16 page paper will be forced to drop to four pages, despite heavy demand for advertising during the Christmas season.

The select list agreed to insert a clause in future advertising contracts reserving the right to raise rates on 30 days' notice.

Visiting Judges Held Expensive

Auditor Says Its Cheaper to Elect Two More.

Forty-three visiting judges from forty-three Ohio counties in the last six months cost Cuyahoga county $7,325.54, County Auditor John A. Zangerle said yesterday. This does not include three of the four visiting judges now sitting in the Cuyahoga court of common pleas.

"These figures indicate the county could support two more common pleas judges permanently on what we are paying those sent here to help out on the clogged docket," the auditor said. "When we have paid for a year of visiting judges we shall have expended approximately $15,000. The salary of a common pleas judge is $6,000.

At present Judge John B. Worley, of Harrison counyt, Judge C. H. Wood of Morrow county, Judge Geo. W. Mannix of Darke county, Judge J. P. Bailey of Putnam county and the Cincinnati court of appeals are sitting here. Judge W. B. Thompson of Elyria is here in place of Judge T. M. Kennedy, who is hearing a criminal case at Elyria.

ANOTHER BLOW AT COAL TROUBLE FOR THIS STATE

(By Associated Press)

Columbus, Dec. 3.—On top of the already acute coal situation in this State which affects many northern Ohio cities, comes the information to Attorney General Price that the West Virginia fuel commission has ordered the natural gas of the Hopewell Co., that supplies many cities in northern Ohio, shut off and diverted to the West Virginia field.

[Mu]sical Art Students Gave Excellent Program

[T]he student members of the Mu[sical] Art Society gave their first pro[gram] of the season yesterday after[noon] in the Knights of Columbus [hall].

[Mrs.] K. P. Roefy, president, open[ed] the meeting with a few remarks, [after] which she placed Miss Doris [...]tia, secretary of the students' [dep]artment, in charge of the pro[gram].

[An] introductory paper on the [Fre]nch Folk Song," read by Miss [Ethe]l Regal, brought out many in[teres]ting facts along that line. We [learn] that the melody of one song [...]—"Ring Out"—had been play[ed b]y the Roman trumpeters in the [time] of Julius Caesar. The folk [songs], which were originally written [with]out accompaniment, have had [...] added by later musicians, mak[ing t]hem more beautiful and force[ful].

[In] the program are many of the French songs; several numbers [by F]rancois Couperin (1688-1783) [who] ranks as the greatest of the [Fren]ch school of music written for [the h]arpsichord, in which the French [were k]nown to excel. He wrote a pro[fusio]n of little movements full of [...] and character, grouped into [so-c]alled orders, such as are now [...] only called suites.

[A] number of selections by Ra[meau] were also used, whose works [ver]y resemble those of Couperin, [w]hich show even more direct[...].

[Th]e vocal, piano and violin selec[tions] were all given and show skill [and m]usicianship in every perform[...].

GOLDEN JUBILEE TO BE HELD TOMORROW AT FIRST CHURCH

Varied and Extensive Program Will Occupy Afternoon and Evening.

The celebration of the Golden Jubilee of the Woman's Foreign Missionary Society of the First Congregational church, which began with public services last Sunday, will be continued Thursday with a varied and extensive program.

It will be of general interest to learn, what probably is not a familiar fact to many, that an organization of women in the First church (in its early years Presbyterian) took place at as early a date as 1837, twenty years after the founding of Elyria. By reference to the faded leaves of the minutes written by Mrs. C. E. Johnson, secretary, the mother of C. S. Johnson, of the Brewer block, it appears that a meeting of women of the church was held in the session room April 15, 1837, to hear an address on the subject of moral reform which resulted in the adoption of a preamble and constitution and the launching of what is probably the oldest organization of women in the history of the city. The object was for the promotion of moral reform, especially social purity. It flourished according to the record until 1850. The officers at the last were Mrs. C. S. Ely, president; Mrs. M. Mussey, vice president; Mrs. C. E. Johnson, secretary for tomorrow.

Following is the order of exercises fo rtomorrow:

Reunion and Reminiscence.

This will be a meeting of informal character, Mrs. J. H. Grant leading the devotional period, to be followed by historical sketches by Mrs. Geo. H. Ely, Mrs. Margaret Chapman and Mrs. Chas. S. Johnson. Mrs. Ely was one of the earliest members and the society historian when the dedication souvenir volume of First Church was printed in 1900 on the occasion of the opening of the new church. Mrs. Chapman is also a veteran member, who in recent years served the church as assistant treasurer and parish visitor. Mrs. Chas. S. Johnson has been secretary of the society for twenty years. Greetings will be given by former members. Mrs. W. L. Smith of Washington avenue, will be spokesman for the charter members, herself one of the twenty-three original members of the society celebrating this Jubilee. Miss Marian Metcalf will appropriately recall early days for the society was organized in the home of Mrs. E. W. Metcalf.

Dinner and Toasts.

Following a reception at 5 o'clock in the parlor for charter members and guests, dinner will be served at 6 o'clock in the Gates room, the ladies of St. Paul's Evangelical church in charge. Mrs. C. G. Washburn will preside as toastmistress. Responses will be given by Mrs. A. M. Gibbons, Cleveland; Mrs. W. F. Brunner, Cleveland, and Mrs. Lydia Lord Davis, Oberlin, all of them officially connected with the Ohio Branch of the W. B. M. I. Other impromptu responses may be expected.

Pageant and Thank-Offering.

At 7:30 in the auditorium the Golden Jubilee program moves on to its climax. A brief praise service will be held, the pastor, Rev. J. H. Grant, presiding. Mrs. L. O. Lee, secretary of the W. B. M. I. Chicago, will give the address of the evening. The pageant, "Armenia, The Need—The Response," will follow, written by Clara Little Simpson, Oberlin, and presented under the supervision of the Mission Study club.

The Thank Offering is a special expression of the society "for 80 years of opportunities, memories, and achievements" to the Women's Board of Missions of the Interior for the Central Turkey Girls' College in Marash, one of the objects of the reconstruction program of the W. B. M. I.

Notes of Interest.

One hundred and fifty reservations for the Golden Jubilee Dinner have been made to the chairman, Mrs. S. E. Hirt.

Prof. Hastings and the quartette will assist in the Thursday evening program, rendering the musical numbers in connection with the Pageant.

Mrs. F. L. Kenyon, one of the four living charter members of the society, now of Iowa, widow of a former pastor of this church, is the mother of U. S. Senator Kenyon, of Iowa.

It is an event probably unparalleled that a foreign missionary society should be represented for forty-six continuous years by one and the same missionary as was the case with Miss Esther Maltbie, of Samakov, Bulgaria, and this society.

Miss Edith Husted, of Kobe College, Japan, successor to Miss Maltbie, is regarded as one of the most promising in personality and training of the younger missionaries of the Board. Unquestionably she will be heard from in the future.

INDUSTRIAL FEDERATION WEEKLY MEETING

"Women and Children in Industries," was the subject of an instructive talk by Mr. J. F. Buurke, editor of The Chronicle-Telegram, at the weekly meeting of the Y. W. C. A. Industrial Federation. Tuesday evening. The speaker contrasted the conditions under which women and children were forced to labor in factories before an enlightened public sentiment brought about remedial legislation on the subject, with the conditions existing in various lines of industry and business at the present day, when many employers are doing even more for the comfort and welfare of their employees than is demanded by the most advanced labor laws. His address held the interest of the club girls throughout.

Regular classes were held, followed by committee meetings. The Social committee will give a children's Christmas part during the holidays, with a real Santa Claus, and is also planning a minstrel show for January which promises to be quite an event.

The members of the Dramatic club who are in the cast of "The Ladies of Cranford," are urged to attend for practice on Monday evening next, at seven o'clock.

A meeting of the Membership committee is scheduled for Thursday evening of the present week.

The members of the Industrial Federation are a live lot of girls who get much pleasure out of their social activities and they anticipate a successful season.

JURORS BEGIN SHOOTING QUIZ

Call Witnesses of Wakeman Affair.

Norwalk, Dec. 3.—The grand jury this afternoon began an investigation of the shooting at Wakeman last Saturday morning in which Amos Roberts and David Staubin, both truck drivers of Toledo were slain.

Eight witnesses have been summoned. The grand jury, it is said, will endeavor to learn whether the members of the posse were criminally negligent when they started on a bandit hunt and fatally wounded the two men. Statements made by the men before their death do not tally with assertions made by members of the posse.

D. D. Staubin, of Toledo, a son of one of the slain men, was at the court house today. He accompanied C. J. Harrison of the Harrison truck line, Otis Johnson, a driver, and Attorney S. S. Bartsfeld, all of Toledo. Mr. Bartsfeld represents the estates of the slain men. He said he was here to attend to the civil affairs of the case.

Prosecutor Carpenter says that if action is taken to recover damages and the county under the state mob act, suit must be started by attorneys representing the estates of the dead men.

"TEA FOR THREE" COMES TO RIALTO, DECEMBER 9

"Tea for Three", an angle on the triangle, as it is advertised, will be the attraction at the Rialto Theatre next Tuesday night, December 9th. The comedy is by Rol Cooper Megrue, author of "It Pays to Advertise," "Under Cover," "Seven Chances," and several other plays equally popular. It is presented under the management of Selwyn & Co.

This is the first play to be offered

Miss Cecil Kern in "Tea for Three"

by Mr. Megrue in over a year and there will be not a little curiosity to see what it is that has kept him engaged for that length of time. Reports from New York, where "Tea For Three" met with instantaneous success on its opening night there early in the season, say that it is far the best that talented playwright has ever done.

"STOP GREEN EYES" EXHORTERS? NO! NO!

Comical Incident While Filming New Dalton Photoplay

When Director R. William Neill, while filming "Green Eyes" for Paramount with Dorothy Dalton in the

star part, undertook to stop a negro camp-meeting after it had got going, he found he was up against the toughest problem in his career.

True, it was only an imitation camp-meeting but the exhorters, when they started exhorting; the singers, when they began to sing, all refused to stop. So they stopped grinding on the scene, one of the most humorous in the picture, and waited ten minutes till the throng of colored brethren and sisters decided it was time to quit.

"Green Eyes" is a story of jealousy and what it leads to. But the picture is full of comedy and a splendid vehicle for Dorothy Dalton, one of the loveliest and most graceful young women on the screen. "Green Eyes" comes to the Strand theatre tomorrow.

MOVIE ACTRESS NOT MARRIED, AFTER ALL

Gladys Brockwell.

Too little time between marriages is the cause of the annulment of the union between Gladys Brockwell, motion picture star, and Harry J. Edwards, director of film plays. In March, 1918, Miss Brockwell was divorced from her first husband, Robert S. Broadwell of Los Angeles, marrying Mr. Edwards in the following July, less than the required nine months before the final decree from Mr. Brockwell was due.

Thrilling Stunts Done by Edythe Sterling, at Dreamland Thurs.

With the happy knack of securing new setting as well as new stories World Pictures presents a distinct novelty in its newest picture, "The Arizona Cat Claw," an exciting story of the far West. This picture tells of a girl bred among the rough cattle men of the plains, showing her masculine development due to her surroundings.

Blossom Driggles is what most people would describe as a cow girl. Her father owns a big ranch and she is the pet of the cowboys and ranchers in their district. But she is not what one could describe as a spoilt child. Blossom is perfectly capable of taking care of herself as is proven several times over in the picture.

Miss Edythe Sterling, who is starred in "The Arizona Cat Claw," is famous for her ability as an equestrian and in this picture has plenty of scope to show her daring and thrill the audience with her hair raising stunts. Stunts done in this picture have seldom been equalled.

"The Arizona Cat Claw" will be the attraction at Dreamland theatre Thursday only.

GOOD POLITICS IS PROPER

When the cartoonists are unable to think of anything ...o-date that they believe would be interesting they cari...re Congress. This is universal and is universally ...p. They usually represent Congress as playing ...ics. Always so, if the majority of Congress is of the ...osite party.

It would be a good thing for all representatives elected ...he people to keep in mind not just before re-election ...rom the moment they begin to serve until they close ...e they are and whom they serve.

Nature Study Outdoor Life

The Birds' Christmas Tree

BY ADELIA BELLE BEARD

A new and thoroughly happy way to celebrate Christmas, an outdoor way for outdoor boys and girls, is to prepare a Christmas tree for the winter birds, then sit down, *keep still*, and watch them enjoy it.

If you have grounds around your house where suitable trees are growing, choose a small one, an evergreen, if possible, for the Christmas tree. You don't have to cut it down. Use it where it stands. But if you live in a city, shake its dust—or snow—from your feet and get out into the country where the birds are and where the loan of a living Christmas tree may be had for the asking, or taking.

In either case, make your selection well in advance of Christmas day so that you may plan just how to load the tree with food, the gift most acceptable to the hungry little visitors.

Do not add any bright colored or glittering tinsel trimmings, that will frighten away the birds instead of attracting them. Some soft, ripe fruit, cut open to show the seeds, may be hung to the branches to give a festive look and provide a tempting delicacy.

Make a number of shallow containers to hold seeds and grain, and after filling, hang them securely to the branches as high up as possible, well out of reach of prowling cats. Box lids, covered with brown wrapping paper and suspended by brown or green cotton string, are excellent to use for the swinging trays. These trays should be large enough to allow standing room

for one or two birds and the grain should be spread out in the centre.

For SEED-EATING BIRDS select from this list: Cracked corn, millet, hemp, buckwheat and mixed chicken feed.

For INSECT-EATING BIRDS have raw suet, also sunflower seeds or crumbs of *raw peanuts*. Tie the suet to the tree as you see it in the illustration.

Study Problems Solved

How to Study History

BY ARTHUR DETMERS
Francis W. Parker School

History is the story of what men have done. When you are getting your lesson, don't forget that you are reading a story and that the more interested you are in the story, the easier you will remember the facts. On sitting down to a lesson, say to yourself, "Now let's see what happened!" If you go at it in that spirit, the lesson will be easy to get.

Before you begin, however, find out, if possible, what the lesson is about. This you can tell by the heading of the chapter, by the marginal topics, or by the heavy-faced type that begins

each section or paragraph. And when you have finished reading, ask yourself again, "What is the lesson about?" And be sure you answer the question.

Having read the lesson once, put away the book and see how much of it you can recall. At first, perhaps, you won't recall much, but after a little persistent practice, you will find yourself doing better.

Remember that not all parts of the lesson are equally important. If you know what the subject of the lesson really is, you will be able to tell what facts bear strongly on the subject and what do not. Learn the important facts.

Now read the lesson over again thoughtfully, with pencil in hand, underlining neatly the most important words or phrases. These underlinings will help when you look over your lesson just before class or when you review.

If you have time, put down on a piece of paper or in a notebook the main facts that you have learned. Do it without the aid of the book if you can. Or write a series of "catch words." For instance, if the topic is the Plymouth Colony, these would be the "catch words": Pilgrim Fathers, Mayflower Compact, hard times, town meetings, Indians, William Bradford, Miles Standish.

WHO'S WHO

DUKE OF AOSTA

The Duke of Aosta, eldest cousin of King Victor Emmanuel, who has been exiled from Italy because of a leaning toward the poet, Capt. Gabriele d'Annunzio, leader of the Fiume raid, aided the arms of Italy. In 1917 he was in command of Italy's third army, which was opposite the combined forces on the north. He enabled this army to successfully [illegible] in good order [illegible] the Tagliamento line, [illegible] frustrating the plans of the Germans for separating it from the main forces of Italy under the command of General Cadorna.

The Duke of Aosta was born in 1869, the son of Prince Amedeo, and early began an army career. The banishment of the duke is interesting because of his having once been in line for the Italian throne. Every previous Savoy prince who bore his title became king of Italy. It is understood that the Duke of Aosta will live in Belgium.

Modern Circuit Rider Uses Flivver

"THE KING'S BUSINESS REQUIRES HASTE"

CIRCUIT RIDING—OLD AND NEW

The [illegible] century circuit rider who has congregations scattered over from ten to fifty square miles of territory does not travel from place to place on horseback. Instead he makes use of two of the latest methods of transportation, immeasurably faster than the slow-paced Dobbin. He either mounts a motorcycle and pfut-pfuts his way from one village to another or climbs into a moderate priced automobile and whirs about. Probably the only reason why he does not use an airplane is because his congregations refuse to have him risk his life by becoming a "sky pilot" literally as well as figuratively.

The number of strictly up-to-date circuit riders will be greatly increased as a result of the Nation-Wide Campaign of the Episcopal Church. In the surveys of the needs of the various parishes and dioceses returned to the general headquarters of the Nation-Wide Campaign at 124 East 28 Street, New York City, many requests have been included asking for aid in buying motorcycles and automobiles that the effectiveness of the rector in the sparsely populated sections of the country may be increased many times.

The Right Rev. Hugh L. Burleson of Sioux Falls, S. D., Episcopal Bishop of South Dakota, in including the item of automobiles in the survey for that diocese says: "A priest with a machine can do just four times the work out here as a priest without one."

The Right Rev. Clinton L. Quin, Bishop Coadjutor of Texas, with headquarters in Houston, asks for automobiles for the clergymen in his diocese as does Archdeacon Garner of Amarillo for the Diocese of North Texas. There the territory in charge of each clergyman is large and the distances he has to cover so great that it is deemed indispensable that he be supplied with motor transport.

The Right Rev. James Wise, Bishop of Kansas, wants motorcycles instead of automobiles for a number of his clergy. With them he will be able to supply a preacher for a number of small towns within sixty miles of Topeka every Sunday.

The Right Rev. Frank Hale Touret, Bishop of Western Colorado, also asks for automobiles while the Right Rev. Paul Matthews of the Diocese of New Jersey wants, in addition to motor cars, a motor truck large enough to transport a priest with all the accessories needed for holding any kind of a religious service—communion, funeral, morning prayer or wedding—so that out of the way communities in southern New Jersey may enjoy the religious advantages of more populous communities.

As a result of the Nation-Wide Campaign, which is to raise both money and workers for the expansion of all Episcopal activities, the dealers in automobiles, motorcycles and gasoline will find a new customer for their wares and one whose trade is entirely likely to keep on expanding as the vestries learn how much modern means of transportation add to the amount of work which their rectors can accomplish.

DEMOCRATIC PRESIDENTIAL POSSIBILITIES

Senator Atlee Pomerene of Ohio.

A quiet but nevertheless active campaign in behalf of Senator Pomerene for president is now under way. The senator's friends are particularly anxious to get control of the situation in Ohio, not only because Ohio is his home state, but because it is the home state of another Democratic presidential possibility—Gov. Cox. Should Cox get the Ohio delegation Pomerene would be out of the running almost before the race ha'd begun.

Senator Pomerene is a strong Wilson man. He has supported every important policy advocated by the president since the latter entered the White House. Should Pomerene be nominated by the Democrats, and elected, Woodrow Wilson doubtless would continue to exert a great influence in Washington.

Atlee Pomerene was born at Berlin, O., in 1863. He graduated from Princeton university in 1884 and from the Cincinnati Law School two years later. He was admitted to the bar in 1886 and has since practiced law at Canton, O. He was city solicitor, 1887-91; prosecuting attorney of Stark county, 1897-1900, and was elected lieutenant governor of Ohio, Nov. 8, 1910. He has been in the U. S. senate since 1911, and his present term expires in 1923.

SENSE AND NONSENSE

Fortune is never as faithful as misfortune.

If a man's wife was a stranger to him and happened to meet him for the first time, she would be surprised to find what a good fellow he is.

When you are right, you can afford to keep your temper. And when you are wrong you can't afford to lose your temper.

Most any married man can tell you that it is never too much trouble for his wife to hunt for it.

Any married man who has a date with a Queen down town can tell you that Woman's Place is in the Home.

Spoiled stomachs and spoiled children are always demanding things that they can't have.

A lot of skinflints go through life hiding their meanness and stinginess behind that respectable word "Economy."

When a girl first gets her engagement ring she discovers that it is not good form to wear gloves when you are in a street car.

It may take a married man two days to make up his mind to do a thing. But it takes his wife only two seconds to make up her mind that he isn't going to do it.

Your Debtors do not seem to worry if you never get any mail. But it is different with your creditors.

There are still a lot of old fashioned fads who believe that a man who needs two knives to eat a meal is a Dude.

When a woman wears a pound of paint on her face, you get the bigrings on her fingers and a pound impression that her Jewelry is as real as her complexion.

UNCLE SAM IS SAVING MUCH LOST BAGGAGE BELONGING TO YANKS

National headquarters of the Red Cross has called attention to the fact that there are at present approximately 150,000 pieces of lost baggage belonging to members of the A. E. F. on the government docks at Hoboken, N. J., consisting of 20,000 trunk lockers, 15,000 bed rolls, 5,000 suit cases and 110,000 barracks bags, which have come from overseas and remain unclaimed by their owners.

Much of this baggage is marked with the name only and cannot be forwarded to the owner. In all cases a new shipping address is required. All owners of lost baggage should be advised to send their claims and present addresses to the Lost Baggage Branch, Pier No. 2, Hoboken, N. J., with an accurate description of missing property.

A complete card index there permits prompt identification and the baggage will be forwarded by express at government expense if on hand at Hoboken. The Red Cross 615 Masonic Temple, desires to assist each man from overseas to recover his lost property as well as help the government to dispose of this enormous accumulation.

A recent ruling from headquarters states also that a discharged soldier may wear his army overcoat this winter if he changes the buttons and removes the braid and chevrons and anything else that might indicate that it was part of his uniform.

...AND OF INFANTA EULALIE, ...WHO HAD HIM CONFINED, ESCAPES

Infanta Eulalie and her husband Antonio de Orleans.

Infanta Antonio de Orleans, the profligate husband of Infanta Eulalie, has caused a sensation in high Spanish circles by his escape from the estate where he was living under surveillance. Infanta Eulalie, who is the aunt of King Alphonso, had him declared of unsound mind and placed under guard. Because of his degenerate mode of life she separated from him several years ago.

Apple Scarcity Brings Higher Fruit Prices

That the price of fruit, particularly apples, in the future will only justify the conservative planting of orchards is the opinion of W. J. Green, horticulturist at the Ohio Experiment Station. Mr. Green points out that the enormous crops of apples a few years ago really resulted in a loss as the over-production reduced the price to such an extent that orchard owners could not even pay for the expense of handling the apples. This year with Ohio producing approximately not more than 30 per cent of an average crop, the price has arisen to $7 and $8 per barrel for apples shipped out of orchards and from 8 to 13 cents a pound for apples retailed in grocery stores.

It would not be safe to start extensive planting expecting to receive the present high prices. Mr. Green believes, however, that the price of apples in the future will adjust itself profitably to the grower who sets out orchards containing varieties of general commercial importance.

"FOTYGRAPH ALBUM" WAS BIG FEATURE OF PRESENT GRANGE CELEBRATION

Eaton People Are Also Making Arrangements for Farmers' Institute.

The last grange meeting was well attended and much enjoyed. One number which deserves especial note was the picture album shown by Mrs. Rose. She wore an old-fashioned gown and described the different pictures in the album which opened disclosing tableaux of her friends: Mr. Clyde Rose, her father, a good man but rather set in his way; Miss Ione Cole, the mother of long age; Miss Ruth Ross, an old-fashioned bride, and Clyde Crowell, the bridegroom, were a unique pair; Mr. Lewis Munn, the minister, who looked saintly but whose salary $200 per year and donations, was good. Miss Margaret Rose, the ministers wife, who was "too dressy."

One of the speakers of the Farmers' Institute, which will be held here January 16 and 17, 1920, is Mr. Alfred W. Place, of Jefferson, Ashtabula county, O. Mr. Place is known in Ohio for his splendid work in organizing the Northern Ohio Dairymen's Association. The high points in his life are—a farm boy, college graduate, four years of post graduate work in Butler college and the University of Chicago, student of sociology in Europe, 1900; member of the archeological class of the University of Chicago to Egypt, Asia Minor and Palestine, in 1903; taught for six years in Japan, is now developing an 1100 acre farm in Ashtabula, and writes that, "It takes more brains than any other thing I have ever been in." Mr. Place's successful experience in organizing the dairymen of his section will be invaluable to the dairymen in this vicinity, and everyone should arrange to keep those two dates open, Jan. 16 and 17, 1920. Two of Mr. Place's should prove to be of especial interest to the farmers of this locality are, "Co-operative Selling for Dairymen" and "Shall I Buy a Tractor?" There is no time like the present to make notes of any questions which you may have bearing upon these topics. You will then be enabled to derive the greatest benefit from the Institute sessions by being prepared to take an active part in the discussions.

Mrs. Mary Sumner and Mr. and Mrs. James Longbon, of Berea, were callers upon Eaton relatives Sunday.

Mr. and Mrs. Frank Cousins, Mr. and Mrs. Leon Barnett and Mr. and Mrs. Harley Wilson attended the meeting of the Pomona Grange in Oberlin.

Little David Ross, of Wellington, has been spending a few days with his grandparents, Mr. and Mrs. M. C. Ross.

Arthur Ross is reported to be rapidly regaining his health.

Mr. and Mrs. M. C. Ross entertained all of their children and grandchildren, twenty-five in number, on Thanksgiving day. At noon a very delicious dinner was served.

Friday evening December 5th, the Ladies' Aid society will hold a bazaar at the church basement. There are several interesting features being arranged for the affair. Supper will be served.

Plans are being laid for another good program at the grange meeting Dec. 12th.

Friends are very sorry to learn of Pearl Cornish's sickness. Having recovered from smallpox she is now quite sick with measles.

The thought of the Sunday school is again turned toward Christmas.

How it may best celebrate the birthday of the "King," "The White Gifts for the King" program will probably be given.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of Influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished.

It's really no joke for people who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

OVERSOLD

Before We Start

Production and Sales are the two vital requirements for a successful business.

Ordinarily, production comes first and success then depends on the Sales Department.

With the Ohio Motor Vehicle Co., sales came first, for two reasons:

1st. Buyers wanted the car we are going to make, and

2nd. Our past experience in the automotive field gave them confidence in our ability to produce.

NOW the Ability to Produce

You hear of very few new Motor Car Companies, although the demand for new cars is at the highest point in the history of the industry.

Why don't new car companies spring up on all sides?

The short answer is, that they can't buy the parts.

What favors the Ohio Motor Vehicle Company?

The Ohio Trailer Company, which is succeeded by the Ohio Motor Vehicle Company, has been a purchaser in the automobile field for almost eight years. As an old customer of all the essential parts makers, it can continue former contracts and make new ones. Furthermore, it had the foresight to anticipate its needs and is now able to command its raw materials. It had an organization of long standing. This organization was kept intact and grew during the war period. It performed a distinctly vital service for our country's military needs.

How to keep this organization busy after the war was the question that gave the answer: Ferris Motor Cars.

FERRIS Motor Cars

Months before the Armistice was signed, our motor car plans were developed. Our materials were contracted for. Deliveries are now being made. The organization is set for manufacture. And finest of all, *our first year's production is all sold and many dealers are already on the waiting list for Ferris Cars.*

Why Sell Stock?

We need money to pay for materials and labor. To make a thousand or two thousand cars requires cash, and lots of it. We could get this cash from a bank or an investment house on request, but that is not desirable. The better way is to distribute the stock among numerous holders, all interested, all serious as to the soundness of their investment, and all willing to co-operate in making their company a success.

This is our method. And on this method you have an opportunity, for a short time, to purchase Ohio Motor Vehicle Company stock and get an interest in a going organization that has its first year's quota of cars all sold, its materials all contracted for and partly delivered, its organization in smooth order for production, its credit beyond reproach, its personnel acknowledged throughout the motor car field, its success and profits assured by the most deliberate planning, and the acceptance of Dealers who have already in fact guaranteed its profits from the start.

Verify these facts if you wish, but to be safe, mail the coupon now and then investigate to the limit.

HUGHES HEALTH LAW WILL BE AMENDED

Changes in Lorain Man's Bill Will be Submitted Soon.

Columbus, O., Dec. 3.—The department of health on instructions from Governor Cox, recently drafted amendments to the Hughes health law, effective January 1. These amendments will be presented to the legislature when it meets next month.

Cox ordered changes in the law following a conference with the state auditor Donahey, who attacked its financial provisions. The part of the law which allows district health boards to make levies upon local sub divisions to be changed so that the state auditor, health department of governor will have to sanction the levies. This is to prevent unreasonable levies on poor local sub-divisions.

Donahey sent a letter to all county auditors today pointing out the fiscal changes needed. If the legislature refuses to change the law, Donahey said he would test it in Ohio supreme court.

ONE PARIS HOUSE STILL MAKES STRAIGHT LINE DINNER GOWNS

Of all the displays in Paris which were visited by American fashion designers there was only one house which bravely and boldly exhibited nothing but straight line models. The designer claimed that the hip bouffant would not be popular long and that women would cling to the straight gown just as it clung to them. This seems to be slightly true in America. It is the youthful persons who are adopting the hip trimming and the hoops and wire tunics for dance frocks. The dinner gowns de luxe, however, are usually built on the long slender lines which permit graceful draping.

Here are three of the season's most exquisite creations for evening wear. While they follow the bold little Paris house by having straight lines and long skirts still the American designer had to put just a hint of the hip drapery on two of them.

SHOT BY BANDIT PAIR, VICTIM IS REPORTED DYING

Cleveland, Dec. 3.—John Buratta, wounded in a fight with two negro bandits who attacked him in his grocery store, was reported dying Wednesday in Charity hospital.

Buratta's resistance to the bandits was to save $10—all that was in the cash register. In blocking the negroes from stealing the money he was shot in the neck and in the back just below the left shoulder.

Buratta was alone in his store, 2232 E. 31st street, when the two thugs entered just as he was closing up Tuesday night.

Flee Without Loot.

Both drew revolvers and commanded Buratta to turn over his money. Instead of complying, Buratta jumped over the counter and knocked one of the robbers down. The second bandit fired two shots, both taking effect, and as Buratta fell his assailants fled, making no attempt to rifle the cash register.

Two men who were passing the store at the time ran to Buratta's aid when they heard the shots. They collided with the fleeing thugs in the doorway, and there was a short tussle, but the bandits succeeded in tearing themselves free.

Description Vague.

The fugitives ran toward Woodland avenue, covering their flight by turning from time to time and flourishing their revolvers.

Buratta was taken to Charity hospital. When questioned there by Detective Captain Matowitz and Detective Hogan he could describe the bandits only a wearing dark overcoats and black caps.

Two other holdups were reported during the night, the victims being Douglas Macausland 10415 Rosehill avenue, and Alfred Rehlander, 2051 W. 85th street. Macausland was attacked by three youths in front of his home, and after being beaten into insensibility with a blackjack, was robbed of $5. One lone footpad attacked Rehlander in front of his home and attempted to choke him. Approach of two men, however, frightened the assailant away.

Get Cash and Clothes.

The three who attacked Macausland are believed to be the same who on Sunday robbed Harold Farren, 12701 Arlington avenue of $15 at the corner of E. 135th street and Brockland avenue.

Burglars got into Harry Siefert's home, 7409 Starr avenue, early Wednesday and stole $25 in cash and clothing valued at $100.

A healthy scalp results and vigorous new hair grows.

Famo contains no alcohol to dry the scalp and cause grayness.

It is sold on a positive money-back basis. If you are not satisfied with the results of the large bottle which costs One Dollar, your money will be returned.

There is also a small bottle of Famo at 35 cents. Famo is sold at all toilet goods counters and applications may be had at the better barber shops.

GLASS OF SALTS CLEANS KIDNEYS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

SHE MARRIED AN AVERAGE MAN

By Zoe Anglesey

Well, here we are, Athena and I, at Atlantic City. Getting out of that crowded apartment and away from familiar things has already helped me, and we've been here only a day. Besides, there is nothing that soothes like the sea!

Athena—bless that woman's heart and head—arranged with her friend Lynch, editor of the "Messenger," to have me work here, sending my "Correspondence Corner" copy by mail. That is one beauty of my work; I can take it with me and do it almost anywhere. When I get to be a real writer (and I've already had some little "fillers" printed) I shall travel all over the world until——

Oh, dreams, dreams! Here I go building air castles when I have a hundred hard problems close at hand to grapple with.

We are not stopping at a hotel, but at a quiet house where we have two connecting rooms opening onto a porch which overlooks the ocean. Some of these winter nights have been warm enough for us to sit outside, well wrapped, for hours.

I was there this evening watching the silver path the moon made across the water and thinking of what Eric Sands started to say to me the other day, when Athena suddenly came and popped into the deep rocking chair beside me.

"He's not coming down, although he wanted to," she remarked, exactly as if she read my thoughts. "By the way, Ann, has he actually proposed that you leave Jim and——"

"Hsh-sh!" I stopped her just as I had stopped Eric when he tried to speak of "proving" that I did not love my husband.

"I won't shush," said Athena, calmly. "If I'm going to get you straightened out we can't afford to mince matters. If you're afraid to have the doctor examine you and take your temperature, how can he prescribe? So Eric thinks you would be happier with him than with present lemon?"

"He isn't really that, you know," I defended, without the least conviction however. "Jim would be all right only——"

"If only he were not Jim," finished Athena. "It's about like that: 'What a pretty girl Lucile would be if she had a different face.' How did you know Sands in England, die?" One's mind has to step lively to keep up with Athena's intellectual jumps.

"Oh, it was just a casual romance. I was only there a few weeks. I never really made love to me. I hadn't heard of him for six years until I had a letter written from the Essex training camp. It was addressed in my maiden name and was forwarded it from my old home. I think the first difference Jim and I ever had was over that letter."

"Hmm!" grunted Athena. "Of course, Jim would object—probably forbade your answering it and stamped off to the club feeling outraged and virtuous! And you began thinking sentimentally of Eric. But I imagine with true Centerville dutifulness you wrote him bravely of your marriage?"

I nodded.

"But he didn't get the letter," I explained. "He had gone to the front. He wrote me again after he was so terribly wounded."

"Wounded soldiers of Eric's type do write wonderful letters," Athena remarked. I felt a tiny bit puzzled at her.

"What are you driving at?" I asked, trying to see her face in the dim light.

"Speaking of letters," she chuckled, disregarding my question. "Here's one that came on the late mail for you. Whom do you hope it's from?"

"Wretch! Don't kill me with suspense!" I cried, grabbing for the letter.

Other Witnesses Called

Mr Fisher, Mr. Winckles

In case of profit what was done by the broker and the City bank with reference to the disposition with the profit that had been sold before it wa sissued; was it credited to the bank? The broker and the bank had what they called different sheets Those sheets show the difference either plus or short in the treasury, provided with a number of transactions which took place entirely in the brokers' office Then in the day's trading the difference sheet would be computed and if the balances were in favor of the bank, a check would be remitted and if the balances were in favor of the broker, the broker would receive a check from the bank. If there were a single trancaction there would be a check covering that transaction

There were many instances in which drafts were issued to cover such balances when no stock was delivered? Yes.

Is it necessary? Yes, for any institution handling money.

In your experience such plus and short account is more or less in use or whether or not a fictitious name for an account is more or less in use in banks. It is used rather less than more

Is that answer to be considered as limited to any period of time or is it general? General.

State in what way the carrying of the plus and short account under an invented name would interfere with an accountant making an examination of the books? It would not deceive him at all.

Tell your reasons. In any bank there is bound to be shortages and overcharges in cash. In the account referred to shortages are carried in a fictitious name and not in the other, an accountant not finding a plus and short account would ask what is the name under which you are carrying you over and shorts?

Why So Many Americans Are Physical Wrecks at 50--

Physician Explains How Signs of Age Creep Into Your System When The Iron In Your Blood Runs Low—Says: Weak, Nervous, Run-Down People Should Take Nuxated Iron To Steady the Nerves, Restore Wasted Tissue and Aid in Giving Renewed Force and Power to the Body.

Does Middle Age Find You Standing On The Precipice Of Uncertainty—Your Blood Starving For Want of Iron?

Blinded by the belief that he is still "just as good as ever," many a man reaches that point of life between 40 and 50 where the future looks bright and assured only to find that a grim relentless force of middle age has undermined his health and energy. In the rush and tone of modern life he has neglected to keep his blood filled with strength-giving iron, and as a result is on the verge of a physical and nervous breakdown, at a time when he should be enjoying his best years.

Physicians explain here why such men need the sustaining blood-building power of organic iron—Nuxated Iron—to help make rich red blood, restore wasted tissue and increase their physical strength and endurance.

Are you slipping at 50?

Can you actually stand what you could twenty years ago when your strength and energy are put to the test? Or do you merely THINK you are "just as good?" Is your heart pumping pure red blood—rich in iron—through your veins? Or is it merely a passage for thin, pale, watery blood without enough red corpuscles to keep your body strong and well?

These are the questions put by Dr. ... B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner, who contends that a man's age can no longer be measured by the number of his years but by the condition of his blood ... believes that the greatest problem of modern life is to ward off the tragedy of middle age, which begins to show its signs the moment the iron in the blood runs low.

Continuing, Dr. Vail says: "There are thousands whose bodies are ageing and breaking down at a time when they should be enjoying that perfect bodily health ... simply because they are not awake to the condition of their blood. By allowing it to remain thin, pale and watery they are not giving the natural life forces of the body a chance to do their work. ... after year, the elasticity, the strength and the energy ... comes from plenty of red blood—filled with strength-giving iron. Iron is red blood food and in my experience I have found no better means for building up the red blood ... to give increased power to the ... than organic iron—Nuxated Iron—which I have prescribed with surprising success for my patients who are approaching middle life."

Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of the City of New York, says: "It is surprising how many people who do not go along in life are in reality ... iron deficiency and do not know it. To supply this lack of iron and help build stronger, healthier men and women, better able physically to meet the problems of everyday life, I believe that physicians should at every opportunity prescribe organic iron—Nuxated Iron—from my experience it is one of the best tonic and red blood builders known to medical science."

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Manufacturers' Note: Nuxated Iron which is prescribed and recommended above by physicians is not a secret remedy ... It is dispensed by all good druggists.

[DET]ROIT ORCHESTRA GAVE OBERLIN CONCERT

[Th]e fourth number of the Artist recital course at the Oberlin Conservatory of Music was the occasion [of th]e first appearance in Oberlin of [the] Detroit Symphony orchestra.

[So]me three years ago the Symphony orchestra in Detroit was [or]ganized, put on a sound financial [basi]s, and the eminent pianist, O. Gabrilowitsch was induced to come [to th]e Michigan metropolis to take [char]ge of it. In this brief time Gabrilowitsch has brought his orchestra [up t]o the standards of the very best [orch]estral organizations in this country. In fact, there were many at last [Satu]rday's concert who thought that [the] Detroit orchestra's playing could [not] well be surpassed. Enthusiasm [ran] high, and they were several [time]s obliged to acknowledge the [plaud]its of the crowd by rising.

[Th]e program opened with the [ove]rture to Oberon," by Weber. [It] was followed by another overture, that of Mendelssohn's Midsummer Night's Dream. Both of [these] compositions are based on subjects dealing with fairies, and the [deli]cate and shimmering beauty of [the m]usic, so faithfully played, was [delig]htful. The overtures were followed by the Prelude and Love-Death [musi]c from Tristan and Isolde, by [Wag]ner,—the first Wagner Oberlin [has h]eard since before the war.

[Th]e Symphony which Gabrilowitsch [chose] for the orchestra's first appearance in Oberlin, was the Tchaikovsky Symphony, No. 5, in E minor. It [was i]n this symphony that the orchestra did its best playing. The [secon]d movement, especially, was [magn]ificently performed. The beauty [of th]e strings, the rythmic charm, [and] the telling climaxes were all [indic]ative of an orchestral organization of superior rank.

[Th]e harpist of the orchestra, Miss [Ostr]owska, gave a recital of [harp] music in Warner Concert hall [at th]ree o'clock on Saturday. The [recita]l was a revelation of the possibilities of the harp in the hands o[f an ar]tist. Her program ranged from [Frenc]h Bourre to the Arabesque of [Debu]ssy. Two of the numbers were [com]positions of the harp of two [Fr]ench composers. These compositions [delig]hted the audience. Miss Ostrowska has a most unusual control of her instrument. She gave [the] rare a variety of tone color, expressive shading, and artistry in interpretation that gave great pleasure [to a] large audience.

she went to sleep and never awakened. She has resided in Oberlin with her daughter for the past three years.

One son, a daughter and her husband preceded her in death some ten years ago. Their home then being at Cortland, N. Y.

Brief services were held at three o'clock this afternoon from the home, conducted by her pastor, Rev. L. E. Daniels of Christ Episcopal church. Burial will be in Dundee, N. Y., Thursday.

Relieves After Effects of Breaks and Sprains

Recovery from fractures and sprains is slow enough at best, but there is no use to be laid up any longer than absolutely necessary. Massage the injured part gently with Houstonia daily. Aching and soreness will quickly go.

The case of E. E. Downing, who lives on Walnut St., in Waverly, O., is one of the many proofs of what Houstonia will do. Says Mr. Downing: "Some time ago I had the misfortune to break my leg. I tried several remedies without results until I began using Houstonia Liniment, and am glad to testify that the results were beyond my expectations."

On rheumatic joints and swellings too, Houstonia has an almost magical effect. Better get a bottle from your druggist and keep it handy. $1.00—half size 50c, trial size, 25c. Ask for House-tone-e-ah (The Original Jones' Liniment), and look for Dr. Jones' picture on the yellow wrapper. The Dr. J. C. Jones Co., So. Charleston, O.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.
